

Synthesis of Novel Chemical Building Blocks

OTAVA, an international science-based chemical company, offers synthesis of *new 4,000,000 Chemical Building Blocks, which are not available from other companies*. These compounds could be individually synthesized and delivered within 4-12 weeks (from 1 to 10 grams). Moreover, scaling up to 50 Kg is also possible. Our databases of *Chemical Building Blocks* are:

- *Chemical Building Blocks* for prompt delivery (13,805 in-stock compounds)
- Remarkably large and diverse collection of *Virtual Chemical Building Blocks*, which could be synthesized upon your request

To look for compounds of your interest, you could:

Download our compound collections (no registration is required) directly from our website
